PUBLIC NOTICE.

NOTICE IS HEREBY GIVEN THAT Tenders for the Construction of a Pack Trail between Shuswap Lake and the Columbia River, by way of Eagle Pass, are invited to be sent into this office up to noon of Saturday, the 6th of June next.

The trail is to be made on the line selected by Government, and in accordance with specifications, which may be seen at the Lands and Works Offices, in New Westminster and Victoria.

Tenders are requested to state both the cash price for which they will construct this trail, and also the terms of Toll Charter on which they will undertake the work; viz., at what rates of Toll and for what period—power being reserved by Government to redeem such Toll right at any time on payment to the Contractor of the cash price asked by him for the work.

With each Tender must be enclosed a Bond of the person tendering, and two sureties with him, for the payment to Government of the sum of $1000 one thousand dollars conditional on the fulfilment of the terms of such Tender, if accepted by Government, within fourteen days from the 6th June, above mentioned.

The Government will not be bound to accept the lowest or any tender.

Tenders should be sealed, addressed to the undersigned, and superscribed "Tender for Eagle Pass Trail."

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe-

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

[illegible] Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness [illegible] until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach, regularity to the secretions, and purity to the fluids. Vertiginous dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King, Evil
Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms
Bowel Complaints	Headache	Tic-Douloureux
Colic	Indigestion	Tumours
Constipation the Bowels	Inflammation	Ulcers
Consumption	Jaundice	Venereal Affections
Debility	Liver Complaints	Worms of all k
Dropsy	Lumbago	Weakness, fr whatever cau
Dysentery	Piles	
Erysipelas	Rheumatism

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. [illegible] common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. [illegible]

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse* the *stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

They are the cheapest Cartridges known, carrying their own ignition, and being made wholly of Metal, are Waterproof and imperishable in any climate.

Boxer Cartridge Cases (empty), of all three sizes, packed with or without bullets, and machine for fastening same in Cartridges.

Makers of Boxer Cartridges ·450 bore, for Revolving Pistols, in use in Her Majesty's Navy.

Pin Cartridges for Lefoucheux Revolvers of 12 M, 9 M and 7 M. bore. Central Fire and Pin Fire Cartridges, for all sizes of Guns, Rifles and Revolvers.

Double Waterproof and E B Caps. Wire Cartridges for killing game at long distances. Felt Waddings to improve the shooting of guns; and every description of Sporting and Military Ammunition.

Another champion has come forward in London to fight the battle of British Columbia, and his assistance is all the more valuable, because it is given voluntarily. The gentleman we refer to is no other than Dr. Cheadle, who travelled over the country with Lord Milton, and who subsequently published a work on the Colony. The immediate cause of Dr. C's re-appearance in the press, is in connexion with Mr. Waddington's efforts in London for the furtherance of the Bute Inlet road. It has now become a matter of grave importance, considering the interests at stake, and the new relations the Colony is forming, how far it would be advisable to finish the Bute Inlet road supposing Mr. Waddington succeeds in his design to the utmost. Even the new steamer about to be built to run between Quesnelmouth and Big Bar Creek by which the river communication is lengthened to 120 miles at least, must have eventually a great influence upon the question; first because it will bring into immediate cultivation, a splendid tract of agricultural land within easy access of Cariboo, and next because it removes the most serious objections to the present wagon road by obviating the necessity of keeping the worst portion in repair. Two great advantages will be thus gained at once; convenience to the public, and economy to the Government. It can not be denied that a new aspect altogether has been given to this important question lately well worthy the attention of leading men in this city. Dr. Cheadle appears to favor the route from Yale to Kamloops, on account of the business interests already existing, and the facility of cutting the road from that valuable section to the Rocky Mountains. We imagine this conviction will force itself upon any intelligent and unbiased man who travels over the interior of the Colony, and without a personal knowledge of which no man is able to judge correctly. The article of Dr. Cheadle published in the *Pall Mall Gazette* of the 15th April, is long and well deserving of review. There are other considerations behind, which, when made known will, we think, strengthen the views put forth by Dr. Cheadle. We have been given to understand a new pass was discovered last fall, so vastly superior to any yet known, that it must be selected, and if so, it will necessarily force the road through Kamloops. We have been promised the particulars to this discovery more fully than we have them at present, and when received we shall resume our consideration of the Dr's very able article.

Victoria, June 11th, 1868.

The Active came down from Nanaimo late on Wednesday night, and therefore could not have cleared before yesterday morning, having having previously been announced to sail at 8 a. m. for Portland, under the idea that no difficulty would occur to prevent her clearance at the Custom House a little earlier than the ordinary business hours of that department. It was important for the vessel to leave at the time announced on account of the [illegible] to ensure her connecting with the J. L. Stephens at Portland. The Purser called at the Custom House and found the deputy collector, who with his usual urbanity and courtesy, was willing to clear the ship so far as he was concerned, but as his superior officer was in town he did not feel authorized to do so before the usual office hours without his consent. Accordingly the purser repaired to that superior officer, Mr Hamley, who declined to clear the ship before the usual office hours, 10 o'clock, although informed by the purser that the tide would not permit the ship to leave the harbor if she were detained till that hour. The purser then urged on Mr Hamley that the ship had barely time to make the connection in order to send the mails on by the Stephens. Mr Hamley replied that if he (the purser) would get a certificate from the Colonial Secretary that the mails were on board he would grant the clearance. The purser did not feel disposed to disturb the Colonial Secretary on such a matter, and not comprehending the vast labyrinth of official horal routine declined to adventure further into its mazes. It at last became necessary for the captain to get under weigh and take the ship across the bar while there was yet sufficient water; anchor there and re-[illegible] convenience of Mr [illegible] taining both pas[illegible] vate and offici[illegible] lucky will fail connecting with the J. L. Stephens.

We gladly make room for the above narration of facts upon the detention of the Active yesterday under circumstances which excited a very strong feeling in the city, because it was supplied by parties of unquestionable responsibility. So much has been said of late upon the irregularity of our mail communication that we can scarcely be expected to remain silent upon an action such as this on the part of our own people, calculated as it is to continue the irregularity complained of, and to bring the Government and Colony into further disrepute. It may be part of the duty of the Collector of Customs to be assured that the official mail is on board, and on that ground he was only doing his duty; but even so, in such an emergency every effort ought to be made to facilitate clearing the ship carrying the mails.

Correspondence.

Monday night, on board Steamer Eliza Anderson.

EDITOR COLONIST,—Having heard the superiority of the overland route from Portland to Olympia so much extolled, a party of six, consisting of Mr Evergreen, a Pennsylvania Dutchman, Mr Brown, a down-east shipbuilder, Professor Byron, a geologist, Dr Canfield, J B Hood, a webfoot, and an agent appointed to look after the morals of the Siwashes—concluded to start on Wednesday last by the steamer Granger at 6 a. m. As [illegible] enced a severe shock of earthquake—at least so we thought. This was caused by the running of a John Bull, who came down the wharf at 2·40 speed, and at last was brought up by the post of the cattle pens and fell into the mud. Coming on board he looked as if he had lain all night in a pickle of slush after being scraped down by the cook and somewhat cleansed by the aid of the hose, we sat down to breakfast, to which we all did justice notwithstanding the dairy-like aroma around us. Arriving at St Helens we stopped to take on board one klootch and two papooses, twins. At Ranier we stopped to take in wood; at half-past eleven we arrived at Monticello, which has been partly washed away. Here an old gent asked us if we wanted dinner; Professor Byron advised us not to dine, as he had been bilked there before; the old fellow said he did not care, as he had a lot of pigs which wanted feeding. Here the party were mounted by the stage proprietor, who kindly charged us $4 each extra, as I presume he had to take some of the horses from the plow. We journeyed thence to Pumfrey's, 22 miles, the road part of the way being good and the balance mountainous and boggy. On our arrival mine host apologised in the most polite manner for his want of attendants to wait on us; this we had to put up with, and waited on ourselves for four hours and a half before we got anything to eat. It came at last and very soon disappeared, although there was enough, but had there been more it would have gone in a like manner. Having smoked our pipes we turned in and slept until 12 o'clock, midnight, when we were aroused by the stage driver, who informed us that he would start at one o'clock sharp if he could find his horses, which he did. After being asked by that courteous Jehu, McCausland, to take a nip from the well, which we declined, we started in a splendid mud wagon with four smoking bays for McDonald's, 11 miles distant, which we reached in five hours in a deplorable state—hands blistered by holding on to the rail, bones aching and unable to sit down if you once got up; at the same time we must have had quite a diversity of scenery, as we experienced the pleasure of driving through several lakes, John Bull singing 'I'm Afloat!' Being stuck in the mud was nothing; while the delight of riding over a corduroy road when the architect had not been particular as to the size of his logs, and the joy of being called on to trim the wagon occasionally, is more than I can express. However we gained a splendid appetite and luxuriated in anticipation of the good breakfast we should get at McDonald's. When we arrived the passengers threw themselves out of the wagon as being the most easy mode of descent from our exalted position. The aroma of the coffee was delightful. The passengers with smiling countenances entered the dining room and were really surprised at the grand display of bread and butter, seven radishes, the fattest part of some bacon fried and baked potatoes. Our host (by the by an old salt) sat at the head of the table and told us to pitch in. John Bull asked the ancient mariner if he kept chickens; Professor Byron said he would like some eggs; the Captain said he intended keeping his chickens, and eggs were too dear, as they were really worth 15 cents per dozen, and what he did not sell he intended sitting on himself. Hope he will have a good time. At length the pleasing call of 'all aboard' reached us, and we crawled aboard the so called spring wagon like so many starved rats and started for Claquato, a fine up hill rocky country of sixteen miles. John Bull complained very much of his shoulder—the new driver very pleasantly told him that there was plenty of fine whiskey at the next stage but the man could not sell us any as he had no license—(he was a Good Templar we found out, and did not sell it from conscientious scruples.) Dr Canfield in the kindest manner went to the other whisky shop and got two bottles for medical purposes, and while using one hand in rubbing the Englishman's coat the other was raised heavenward to assist in the playful pastime of suction. The balance of the passengers gratuitously offering their services on the suction question, which was reluctantly accepted. Some biscuits having been bought, we munched away until we arrived at the house of super-entertainment known as Buchanan's. Old Buck proved himself a host indeed, for a more sumptuous table the traveller, be he ever so weary, could not desire, and to which our stage passengers again did ample justice. From the inmost recesses of our well-lined stomachs we strongly recommend the travelling public not to pass Buchanan without satisfying the inner man. At one o'clock two cayooshes having been harnessed we started for the 18-mile house, which we reached on the jump. On the road we passed some fine homesteads, well fenced, having a good gravelly soil and a luxurious crop of red [illegible] which I suppose is manufactured [illegible] we changed horses and [illegible]ntry about the [illegible] mountains [illegible]ved at [illegible]ing, [illegible] Olyympians the passengers managed to reach *terra firma*, two of the passengers went to bed and remained there until the following Saturday. The next morning two went to Commencement City, Seattle; being left over with our friend Mr Evergreen, the Pennsylvanian Dutchman, aforesaid, we passed the time away eating, drinking playing billards on a first class four pocket table, sipping sherry cobblers and mint julips at ten cents a drink. On Sunday we went to a Sunday school concert, the music and singing being delightful, but as we had no ear for music we left in disgust as soon as we could respectably do so without calling particular attention to our exit. Monday morning about 2 o'clock we were agreeably awoke by a serenade, which put us in mind of a grand scrimmage between fighting Kilkenny cats only a little more so. Unfortunately I had nothing in my room to throw at them, as I fully intended to hurt something. At 5 o'clock we took the last meal with our host of the Pacific who deserves the patronage of the travelling public; at 6 we left the beautiful town of Olympia on board the steamer Eliza Anderson, accompanied with a slight shower of mist which drenched us to the skin in a short time. We were courteously invited into the pilot house and passed the time very pleasantly smoking our meerschaums and sipping some old rye until we came to Steilacoom. The next town is Seattle, County seat of King County where they have a University and two churches; there we found the bark Scotland loading with lumber for San Francisco. A Mr ——, of Tulalup, accidentally fell overboard on going ashore; no damage except a wash. Five o'clock, dinner, which we enjoyed, the cabin being about two feet under water. We would recommend the captain to get some tumblers for the use of passengers. Touching at Port Ludlow and at Port Townsend, we became quite disgusted with the trip; I left determined never to take the overland route again. Apologising for taking up your valuable time allow me to subscribe myself, yours truly,

FAIR PLAY.

Anglican Missions on the Fraser.

His Lordship Bishop Hills has just returned from his visitation of these Missions, which extend from New Westminster to the Bonaparte River. Those interested in the work of the English Church in this Colony will be glad to hear of the success which has attended the ministrations of the Rev J B Good at Lytton, and of Mr O Holmes at Yale. There are over 150 fully enrolled Catechumens at Yale. His Lordship during his short stay there addressed the congregations; assembled from villages between Spuzzum and Ohaynish, which filled the little Church to suffocation. On one occasion an Indian interpreter fainted from the heat and closeness.

On approaching Lytton a party of 60 horsemen, consisting of chiefs associated with the Lytton Mission and the principal men of their tribes, met the Bishop's carriage, and after exchange of courtesies accompanied him to Lytton. There a procession of 700 Indians assembled from all the villages fifty miles round and waited to exchange greetings. Some most interesting services were held at Lytton, especially one for the public reception as a Catechumen of a once notorious sorcerer and "Medicine Man" named Pasco. These services were mostly in the open air, the Mission School being too small to accommodate half the crowd of eager listeners. The two chiefs, Sassiatun and Spintlum, are warmly attached to the mission. In all, 16 chiefs, are intimately connected with the Lytton Mission, and six with that at Yale. The number of Catechumens associated with Mr Good's mission is 580.

On his return His Lordship inspected the Christ Church mission farm at Hope. Thirty-seven quarter-acre allotments have been made to as many of the more industrious families attached to the Yale Mission. Nearly 130 persons are directly benefitted by these gardens. At the time of His Lordship's visit many were camped on the ground in order to attend to the growing crops. Mr Holme's tent, with his Catechist's flag hoisted, was pitched at a little distance from the main camp. In all about 13 acres of land have been brought under cultivation, and the whole church estate fenced in by statute labor in lieu of rent.

The inhabitants of every village on the way turned out to greet His Lordship. Not a single case of drunkenness was seen during the whole journey—a fact attributable to the rigorous administration of the existing law as it affects both buyer and seller of intoxicating liquors.

The road is reported to be much cut up, especially between Spuzzem and Yale, and some awkward interruptions occurred from bridges being under repair.

June 1—Left Bella Bella at daybreak, and anchored the same evening in Lowe Inlet where we found the surveying vessel Beaver.

June 2—Left early in the morning, arriving off Metlakahtla in the evening, having had to anchor for some hours in the Roads during a thick fog.

June 3—Left for Fort Simpson in the afternoon arriving there in the evening, found measles very prevalent among the Indians.

June 4—Left at noon for the Mission at the entrance to Naas River, anchoring there and leaving next morning, June 5th, for Metlakahtla; leaving next morning (6th) early and arriving the same evening in Skedegate Bay, Queen Charlotte Island, leaving there on the morning of the 8th, and arrived at Esquimalt on the evening of the 10th.

MINING PROSPECTS.—From all parts of the country we hear of mining operations being commended and prosecuted with a degree of energy and hope that never before seemed so thoroughly to pervade the mining community of Cariboo. One week only has elapsed since the laying-over period expired, during which time all the idle claims have been started and hundreds of idle men have commenced work. A month, however, may be allowed to pass before we hear of many more wash-ups than have been reported weekly; but by that time we expect to be able to report a large increase in the product. [illegible] (considered as one camp) at present is the centre of attraction outside of Barkerville. The yield from that camp this week will probably reach 1000 oz. There are a number of claims with most excellent prospects just getting ready to commence washing, and we would not be surprised to find the yield from that camp soon to reach 1,500 oz. weekly. On William creek—should no accident befall the bed rock drain—when all the old claims get fairly opened and the 12 or 15 hydraulic co's commence to wash up, it is expected that the weekly yield of gold will be far in advance of any other season. On the whole, then, there is strong grounds for hope that Cariboo will yet redeem its name from the slander and defamation that has been cast upon it by those who were never the friends of the country.—*Sentinel*.

FROM YALE.—We condense the following summary from the *Examiner*:—During the week 95,000 lbs of freight passed over the road. The Road Tolls collected at Yale from 1st January to the 1st June amount to $11,600. During the corresponding period of last year they amounted to $9200 48; but during the same period in 1866 they amounted to $15,235 52. It is estimated that the immigration to Cariboo this season, including that from Blackfoot country, has been greater than last season. Those coming from Blackfoot mines give a very gloomy account of them. The miners on Tranquille River are making from $5 to $12 a day to the hand. A bed rock flume is in contemplation, Mackintosh & Fortune's saw mill and grist mill plants had arrived in good order, and the saw mill had been set up and was in successful operation. A Confederation League had been organized at Yale. The following is the provisional Committee: Dr Brouse, A. Barlow, H. Havelock, W. Gladwin, A. Rose, A. McLardy, C. Evans. It is proposed to remove the steamer Seaton, J. Wood & Co. owners, from Seaton Lake, and run her between Boston Bar and Lillooet.

WHERE IS THE CHAIN GANG?—This body might be well employed at present on Fort street, between Broad and Government streets. Large heaps of dirt need removing, as well as the filthy water in the gutter. Where's the chain-gang?

FEW of our readers who do not see a regular file of English papers, can imagine how rapidly the country is adopting the 'Womens Right' doctrine. Large meetings are announced in all the principle cities at which ladies of unquestionable social position attend and speak. A short time since, a meeting was held at Manchester to advocate the concession of the franchise to women. Mr John Bright's eldest daughter was to have spoken, but was unwell. As it was Mrs Pochin, wife of the Mayor of Salford, and a Miss Becker spoke, and it is said spoke well. At a meeting in London, a few days previous to the one referred to, there were quite a number of orateresses of still a higher grade in life advocating the same principles. What strange notions the world takes at times. A man's love, and the quiet, endearing, and elevating joys of home, are a woman's best right and which tell most upon her happiness and character.

LILLOOET.—His Honor Judge Begbie held Court at Lillooet on the 25th May. There were two criminal cases tried, viz. Bacon and Charley, two Texas Bar Indians. They were convicted of having murdered a Chinaman in 1863. It appears that they stabbed him in two places, and then knocked him on the head with an axe; fastening a rope round the body with a rock for an anchor attached to the end, they threw it into the Fraser. It is said that they had also committed five or six subsequent murders. Both were found guilty of murder in the first degree, and were sentenced to be hanged. The Queen's Birthday was celebrated with much spirit at Lillooet. The weather was delightful and there was some excellent horse-racing. A greater breadth than ever before has been put under wheat; and it is looking very well.

THE SAANICH COAL MINE.—Mr C. W Wallace came down on Wednesday night by the Sparrowhawk from the above coal mine, and reports, as already stated, that the steaming qualities of some of the coal tried, out of about one hundred tons already taken out, is said by judges to be superior to the Nanaimo coal. He purposes an early return, taking back more men to prosecute the work with vigor. The Hudson Bay Company at one time worked the seam and took a considerable quantity of coal from it. The locality is not far distant from Fort Rupert on this island, and the coal presents itself in various places, covering a large extent of ground.

BRITISH NORTH AMERICA.—In the House of Commons on the 9th int., as will be seen by our last night's dispatches, inquiries were made as to the intentions of Government respecting the opening of the British North American territory for settlement. Aubrey, the Under Colonial Secretary, settled the question for the present, announcing that pending the negotiations with the Hudson Bay Co. no steps could be taken by the Government in that direction. How long it will take red-tape to finish that negotiation we should also like to be informed.

J. H. TURNER & Co. have received by late Express, direct from their buyers in Europe, a magnificent assortment of Black and Colored Silks, Moire Antiques, Spanish and Pusher Lace Shawls, Ladies' Black Silk and Cloth Jackets, Black Silk and Camlet made-up Dresses, Fancy Skirts and Skirtings, Evening Dresses, Trimmed Bonnets and Leghorn Hats, and a large assortment of Dress Trimmings, Ornaments, Flowers, &c,, &c,; also, by late arrivals, an assortment of Brussels and Tapestry Carpets and Rugs.

LONDON HOUSE,
Victoria, V. I.

THE last Cariboo *Sentinel* reports a big strike by some Cornishmen on Willow River, opposite Mosquito Gulch. The discovery of [illegible] new territory is telling well upon our mining interests. This late strike will soon lead enterprising prospectors into the flats between William Creek and Jack of Clubs Lake, which are doubtless all auriferous; and that will soon settle the question of draining the Lake, and opening ground at present useless, which would sustain 10,000 men.

IMPROVEMENTS.—The rapid improvements [illegible] and the citizens, but it indicates a faith in the permanency and value of the place as a mining country. The street passing through the town is thoroughly ditched and gravelled, and the rapid repair and construction of sidewalks is making the place look quite like refined civilization.

THE BARK ONWARD.—This vessel has been 18 days on her trip from San Francisco, having experienced light head winds all the way. She neither saw nor spoke any vessels and of course brings no news. She is on her way to the Utsalady mills to load with lumber. Her manifest will be found in another column. Millard & Beedy consignees.

SUDDEN DEATH.—On Thursday morning last, Sophia Boulliard, a lady familiarly known to many in the colony, came to her death very suddenly. An inquest was held upon her body and a verdict rendered by the jury of 'death from natural causes.'—*Sentinel*.

VICTORIA HOUSE.—Just received at this establishment by Express, direct from London and Paris, the latest novelties in Bonnets, Hats, Dresses, Mantles, Jackets, &c., and a large assortment of the newest styles of Trimmings, Flowers, Ornaments, and of the miscellaneous articles for ladies' wear required during the present season.

BITTEN BY A DOG.—A child belonging to a trader on Government street, was bitten in the face yesterday by a dog, but not seriously. The police subsequently destroyed the animal.

FOR NEW WESTMINSTER.—The str. Otter in lieu of the Enterprise which requires slight repairs, left at 3 o'clock this morning for the mainland. The current in the Fraser is very strong and the water high at present.

KINGS HEAD SALOON.—In addition to the usual attractions at this favorite place of amusement, there will appear a celebrated Comic Singer from the U. S. S. Jamestown, at present in the harbor.

THE Marquis of Hastings has had a turn of fortune on the turf. He won the Ascot Derby with The Earl, Cap-a-pie running second and Suffolk third.

THE Cyrus Walker arrived yesterday morning from Port Gamble, *en route* for Alberni. She brought 40 tons of bran and 150 barrels of flour for this market.

THE steamer Diana, Capt T. Wright, went round to Esquimalt yesterday to tow the U. S. S. Jamestown to the outer harbor, where that vessel will lie for the present.

SCARCITY OF EMPLOYMENT.—The *Revolution* says: "There are 60,000 people in New York, and 200,000 in the United States out of employment."

FIREMEN.—The Tiger Company will be out to-night for drill at half past 7 o'clock sharp.

WASHINGTON, June 12—A Bill to admit North and South Carolina, Georgia and Alabama, after various amendments, were made and passed by the Senate 41 to 5.

Information has been received that the Prussian Government is endeavouring to obtain a port or naval station on the Caribean. The sloop of war Augusta has been sent on reconnoissance. The post of Simon, Costa Rica was selected and provision for the purchase made. The Costa Rica Government refused to accede, and made pointed allusion to the Munroe doctrine; the present result of the affairs considered complimentary to Ward the diplomatic agent of Costa Rica. It is understood that the President has tendered the office of Secretary of Treasury to W S Groesbeck, of Ohio.

Europe.

BERLIN, June 10—The North German confederation propose to the Great Powers of Europe and America the adoption of an international guarantee of the absolute security from the seizure of private property on the high seas in time of war. The Prussian Government is about to commence work for extensive strengthening of the fortifications of Cologne.

RENEWAL.—Soldiers' [illegible] renewed.—Any indolent ulcer or chronic sore should immediately have this excellent unguent applied to it in the manner pointed out in its accompanying directions. For thoroughly cleansing a diseased or broken skin, and for rousing its poisoned vessels or depressed nerves to healthy action, nothing can surpass Holloway's well-known Ointment. It strikingly shows its power when applied to the "old man's ulcer," which settles in the legs and often becomes most intractable under the ordinary treatment, though no case has yet withstood this cooling and healing salve. The troublesome swellings preparatory to most ulcerations of the legs are likewise reduced by the diligent application of Holloway's unguent, by giving strength of the weakened circulation through the capillaries. 46

LIQUOR CARBONIS DETERGENS OR

Concentrated Alcoholic Solution of the

tit so COAL TAR

[Extract from the Lancet, Dec. 22, 1866

...We are very sceptical of the value of new remedies, and it was in a spirit... that we tried the liq. carbonis detergens. It is represented to be a concentrated alcoholic solution of the constituents of coal tar, and to contain all the active ingredients of the tar, to wit, benzine, napthaline, and phenic acid. The addition of water, with agitation, makes a durable emulsion, in which the tar remains in a state of fine suspension, almost equivalent to solution. Our therapeutical experience of the preparation is very satisfactory indeed. In our hands it has been a most effective agent in the case of various skin diseases, especially of the chronic eczematous class; and one case of psoriasis which had resisted all other kinds of treatment speedily got well under the application of the liq. carbonis detergens. We esteem it a very valuable addition to our list of skin remedies, and worthy of a very extended trial by the profession. In the above classes of disease, and in various others, such as fetid ulcers, etc., the preparation is put into the form of soap.

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco, Established in ... for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street, St. Mary's, Camb. Place, Pad.; Lock, Harrow Road: University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

... of those fearful maladies, should not forget the ... responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded ...

Address Dr J. F. Gibbon, 616 Kearney street, corner ...

Remember to put BOX 252 on the letter.

Consultations FREE.

☞ Correspondents will please inform Dr Gibbon that they read his advertisement in the British Colonist.

SIXTH INDUSTRIAL EXHIBITION

—OF—

The Mechanics' Institute,

SAN FRANCISCO, CALIFORNIA.

THE BOARD OF DIRECTORS OF the Mechanics' Institute hereby give notice that the Sixth Industrial Exhibition of that Association will be held some time in August next, in a building to be erected for the purpose in Union Square in this city. Every preparation will be made to accommodate exhibitors and visitors with a view to make the Exhibition profitable, instructive and pleasant to all parties.

During the three years which have intervened since the holding of the last Exhibition in this city the manufacturing, mechanical, scientific and useful and ornamental arts have made unprecedented progress on this coast, and it is believed that the proposed Exhibition will exceed any other in value that has ever been held on the shores of the Pacific.

The plan of building to be erected, which has been adopted by the Board of Directors, it is believed will prove to be the best adapted, both for display and convenience of the public, of any building ever erected in the State. The building will be perfectly water tight, being covered with a shingle roof, so that no damage from the elements can be anticipated.

All parties who are interested in any of the branches of Manufactures, Mechanics, or the Arts and Sciences are invited to exhibit in the proposed Exhibition, and to share in the publicity and consequent profit which always attends such enterprises. Suitable premiums will be offered, and the specific date of opening the Exhibition will be published at some future time.

By order of the Board of Directors.

Medical.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medicalmen, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,
Gastralgia,
Long and laborious Digestion,
Wind in the Stomach and Bowels,
Emaciation,
Jaundice, and
Complaints of the Liver & Loins

NERVOUS HEADACHE,
NEURALGIA,
DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules more chronic cases.
